

Nordic AIOps & Management User Group Day 2021

Compose IT 

You're invited to join us at the No Cost Nordic AIOps and Management User Group Day, hosted by Compose IT and IBM Sweden.

The Nordic AIOps and Management User Group Day 2021 is a Virtual User Group Event where you can join like-minded users from across the Nordic countries to learn about new and existing best practices in Netcool, IBM Monitoring, Hybrid Cloud and Network Management (now part of Cloudpak for Watson AIOps). Recent IBM acquisitions in the AIOps space with Instanda, Turbonomics will also be discussed

Sessions will be led by business partners, the product management team and subject matter experts to bring you up to date with the latest features, strategy, and product roadmaps.

Who should attend? People who should join include decision makers, users and practitioners including SREs, IT Operations, NOCs, DevOps, DevSecOps, NetOps

Register and participate in the event

A requirement to register for the event is a no cost membership of the [IBM Community](#) and that you have joined the [Nordic AIOps and Management Group](#)

Why become a member of the user group?

The User Group offer many benefits you can take advantage of. The most important benefits include networking, sharing of knowledge and experience with other users, and having a unique link into IBM with access to product experts and executives. As a group you become part of the One Voice joining users worldwide in giving feedback to IBM AND receiving feedback from IBM, taking advantage of existing UG support processes and commitments.
